Education

Chalmers University of Technology / Computer Science and Engineering

August 2020 - Now, Gothenburg

A five year degree containing math, computer science and computer engineering. A selection of courses I've taken: **Object oriented programming** (Java), **Machine Oriented Programming** (Assembly/C), **Data Structures and Algorithms** (Java), I**ntroduction to Functional Programming** (Haskell), **Principles of Concurrent Programming** (Java/Erlang), **Agile Software Project Management**

Sven Eriksonsgymnasiet / Information and Media Technologies

August 2016 - June 2019, Borås

University preparatory programme with a focus on computer science, development and various design technologies.

Work Experience

Centiro Solutions AB / Software Developer

June - August 2022 & 2023, Viared

At Centiro I got a better understanding of what it means to be a developer. Following a release cycle, ensuring test coverage of my code, and collaborating on a large codebase were some of the skills I learned that summer. (**.NET, SQL, Angular)**

Marks Kommun / Assistant Nurse

June 2020– August 2020, Örby

As an Assistant Nurse I provided care to patients and assisted them in daily activities such as eating, getting dressed and personal hygiene.

Ellos Group through Effektiv Bemanning / Receiving

June 2019 – August 2019, Viared

Part of the receiving team. Majority of the work consisted in unloading of containers, sorting received goods and adding them to the computer system.

Extracurricular Activities

Chalmers Cortège Committé / Event manager

January 2023 - December 2023, Gothenburg

During the spring I worked ~70h a week in order to arrange Cortègen, Gothenburg's biggest parade, which reflects the previous year's big events. I was responsible for the bars and staff which served food and drinks to roughly 600 students each day over a 10 day period while the parade was being built.

DNollK Chalmers / Phadderchef

January 2021 - December 2021, Gothenburg

Member of the reception committee at my student division. As Phadderchef I had the primary responsibility for the older students, ca 150, welcoming our 180 new students over a 4 week period.

Tech Experience

Languages & Frameworks:
HTML/CSS/JS, Node JS, C, Python, Java, C#/.NET, React, Angular, SQL, Matlab, Prisma

Tools & Testing:
Git, TFS, Selenium, Postman, Digital Ocean, Figma, Azure DevOps,

OS:
Windows, Mac, Linux
